

PUBLIC WORKS NEWS BRIEFS

The City recently repaved Main Street from Adams Avenue to Utica Avenue with a two-inch rubberized asphalt concrete (RAC) surface which contains crumb rubber derived from scrap tires. The project diverted more than 1,500 waste tires, that otherwise would end up in a landfill.

City of Huntington Beach Public Works Department CC-1397 Main Street Rehabilitation Project from Adams Avenue to Utica Avenue

Funded by a Grant from:

CalRecycle

California Department of Resources, Recycling and Recovery

This Project Repaved a City Street with Rubberized Asphalt
Concrete and diverted over 1,500 Waste Tires from
California's Landfills
